---	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	------	----

Subject Index to Volume 17

- Acanthosis nigricans
association with hirsutism and insulin resistance, 43
- Acromegaly
hyperprolactinaemia after irradiation for, 291
somatomedin-C levels in bromocriptine treated, 369
- Adenoma
of pituitary, 213
- Adipocyte insulin receptors
independent regulation of, 61
- Adrenal
carcinoma
and DOC, 353
function
effect of cyproterone acetate–ethinyl oestradiol on, 577
hyperplasia
and ACTH secreting pituitary tumour, 457
glucocorticoid regimes in, 547
LH stimulatory response, 441
- Adrenergic mechanism
effect on PP and gastrin, 433
- Alcoholism
sex hormones and liver damage, 469
- Aldosterone
in diabetics, 261
- Amenorrhoea
and testosterone secreting tumour, 537
opiate mediation of, 379
- Angiotensin II
in diabetics, 261
- Asthmatics
recovery of hypothalamo–pituitary–adrenal function in, 109
- Breast-feeding
hormone levels in cigarette smokers, 363
- Bromocriptine
-induced pregnancies and prolactinomas, 625
treatment of acromegaly and somatomedin-C levels, 369
- Carcinoma
adrenal
and DOC, 353
Cholinergic mechanism
effect of PP and gastrin, 433
Choriocarcinoma
of pineal, producing hCG β , 423
- Cigarette smoking
breast-feeding, neurophysin and PRL in, 363
- Cimetidine
effect on thyroid hormones, 297
- Corticotrophin
opiate control of, 287
secreting pituitary tumour in adrenal hyperplasia, 457
- Cortisol
salivary
assay of pituitary–adrenal reserve, 583
- Cyproterone acetate–ethinyl oestradiol
effect on hirsute women's adrenals, 577
- Deoxycorticosterone
production by adrenal carcinoma, 353
- Diabetes
angiotensin II and aldosterone, 261
1,25-Dihydroxyvitamin D
effect of prednisone on serum, 21
- Dopaminergic
inhibition of TSH in hyperprolactinaemia, 15
modulation, testosterone and PRL concentrations during, 345
- Erythrocyte insulin receptors
independent regulation of, 61
- Erythropoietin
serum immunoreactive, 419
- Femoral neck
fracture and vitamin D, 189
- Follicle stimulating hormone
secretion during menstrual cycle, 29
- Goitre
effect of iodized oil on size of, 253
- Gonadotrophin
LHRH stimulated secretion
somatostatin-28 inhibition of, 103
oestradiol patterns and precocious sexual development, 601
- Graves' disease
TSH binding inhibition
by anti-TSH receptor antibodies in, 77
following radioiodine, 395
- Hirsutism
association with acanthosis nigricans and insulin resistance, 43

- Human chorionic gonadotrophin
 pineal choriocarcinoma producing, 423
- Hydrotestolactone
 oestradiol and PRL levels lowered by, 495
- Hyperparathyroidism
 and cystic parathyroid adenoma, 123
 effect of prednisone on serum
 1,25-dihydroxyvitamin D in, 21
 parathyroid suppressibility in, 333
- Hyperprolactinaemia
 after irradiation for acromegaly, 291
 amenorrhoea and opiate mediation in, 379
 dopaminergic inhibition of TSH release in, 15
- Hyperthyroidism
 vitamin D metabolism in, 51
- Hypoglycaemia
 PP and gastrin secretion following, 433
- Hypoparathyroidism
 effect of prednisone on serum
 1,25-dihydroxyvitamin D in, 21
- Hypopituitarism
 and Kallman's syndrome, 223
 recovery following surgery, 213
- Hypothalamic-pituitary-adrenal
 recovery of function in asthmatics, 109
- Hypothalamic-pituitary-adrenocortical axis
 and trilostane, 569
- Hypothalamic-pituitary-testicular axis
 and trilostane, 99
- Immunoglobulins
 non-stimulatory
 inhibition of TSH binding by, 395
- Insulin resistance
 association with acanthosis nigricans and
 hirsutism, 43
- Iodized oil
 effect on goitre, thyroid and Jod Basedow, 253
- Irradiation
 for acromegaly followed by hyperprolactinaemia,
 291
- IUD
 levonorgestrel releasing, 529
- Jod Basedow phenomenon
 effect of iodized oil on development of, 253
- Kallman's syndrome
 and hypopituitarism, 223
- Lactogenesis
 post-partum
 role of antenatal oestrogen in, 403
- Levonorgestrel
 levels and IUD, 529
- Lisuride
 effect on hypophyseal and gonadal function, 243
- Liver damage
 sex hormones and alcoholism, 469
- Long acting thyroid stimulator
 neutralization of, 207
- Luteal
 cysts, 389
 phase, 389
 phase
 post-partum and fertility, 609
- Luteinizing hormone
 secretion during menstrual cycle, 29
 stimulatory response in adrenal hyperplasia, 441
- Luteinizing hormone releasing hormone
 intranasal
 and inhibition of ovulation, 91
 luteotrophic analogues, of, 593
 stimulated gonadotrophin secretion inhibition by
 somatostatin-28, 103
- Luteotrophic analogues
 of LHRH, 593
- Lymphoma
 parotid gland, 85
- α -Melanotrophin
 levels in pituitary and placenta, 233
- Melatonin
 nocturnal secretion in schizophrenia, 181
 serum immunoreactive
 and delayed puberty, 517
- Menopause
 and pituitary-ovarian function, 489
- Menstrual cycle
 pulsatile secretion of LH, FSH, PRL, oestrogen
 and progesterone during, 29
 urinary 6-sulphatoxy melatonin excretion during,
 71
- Menstruation
 following childbirth, 323
- Metoclopramide
 effect on hypophyseal and gonadal function, 243
 effect on PRL and TSH, 617
- Myotonic dystrophy
 and thyroid, 449
- Neurophysin
 levels in cigarette smoking, 363
- Noradrenergic mechanism
 of ACTH opiate control, 287
- Oestradiol
 and PRL levels lowered by hydrotestolactone,
 495
 gonadotrophin patterns and precocious sexual
 development, 601
 secretion during menstrual cycle, 29

- Oestrogen
 role of antenatal
 in post-partum lactogenesis, 403
- Opiate
 control of ACTH, 287
 mediation in amenorrhoea and
 hyperprolactinaemia, 379
 modulation of pituitary-adrenal axis, 279
- Ornithine infusion test
 pituitary secretions during, 119
- Ovulation
 following childbirth, 315, 323
 inhibition by intranasal LHRH, 91
- Pancreatic polypeptide
 and gastrin following hypoglycaemia, 433
- Paraplegia
 and testicular function, 303
- Parathyroid
 adenoma, 123
 autotransplantation, 333
 suppressibility in hyperparathyroidism, 333
- Parotid gland
 lymphoma, 85
- Peptide
 inhibin like
 in gastric secretions, 157
- Peroxidase defect
 thyroidal, 1
- Pineal
 choriocarcinoma
 producing hCG β , 423
- Pituitary
 ACTH secreting tumour
 in adrenal hyperplasia, 457
 adenoma, 213
 -adrenal reserve
 salivary cortisol assay of, 583
 gigantism, 271
 α -melanotrophin levels in, 223
 -adrenal axis
 opiate modulation of, 279
 -ovarian function and menopause, 489
 prolactinomas, 129
 somatotrophic and corticotrophic secretions, 119
- Placenta
 α -melanotrophin levels in, 233
- Prednisone
 effect on serum 1,25-dihydroxyvitamin D, 21
- Progesterone
 secretion during menstrual cycle, 29
- Prolactin
 and oestradiol levels lowered by
 hydrotestolactone, 495
 concentration during dopaminergic modulation,
 345
 effect of TSH and metoclopramide on, 617
 levels
 following childbirth, 315
 in cigarette smoking, 363
 secretion during menstrual cycle, 29
- Prolactinoma
 bromocriptine-induced pregnancy and, 625
 of pituitary, 129
- Pulsatile secretion
 of LH, FSH, PRL, oestradiol and progesterone
 during menstrual cycle, 29
- Radioiodine
 induced parotid lymphoma, 85
 TSH-binding inhibition in Graves' disease
 following, 395
- Radioreceptor assay
 for TSH-receptor antibodies, 409
 of TSH-receptor binding antibodies, 173
- Renal failure
 and parathyroid, 333
- Schizophrenia
 reduced nocturnal melatonin secretion in, 181
- Somatomedin-C
 levels in acromegaly, 369
- Somatostatin-28
 inhibition of LHRH stimulated gonadotrophin
 secretion, 103
- 6-Sulphatoxy melatonin
 urinary excretion during menstrual cycle of, 71
- Sulphydryl reagents
 and LATS neutralization, 207
- Testicular function
 in paraplegia, 303
- Testosterone
 amenorrhoea and tumour secreting, 557
 concentration during dopaminergic modulation,
 345
 replacement therapy in hypopituitarism and
 Kallman's syndrome, 223
- Thyroid
 and myotonic dystrophy, 449
 carcinoma followed by lymphoma of parotid,
 85
 effect of iodized oil on function of, 213
 extracts and neutralization of LATS, 207
 familial peroxidase defect, 1
 hormones, effect of cimetidine on, 297
 stimulator bioassay, dose-response relationships
 in, 479
 nodules, effect of TSH on cAMP, relationship
 with iodothyronine, iodine and
 thyroglobulin, 537

Thyrotrophin

- binding inhibition
 - by anti-TSH receptor antibodies, 77
 - in Graves' disease following radioiodine, 395
- effect of TSH and metoclopramide on, 617
- effect on cAMP and thyroid hormone release in thyroid nodules, 537
- receptor
 - antibodies, 409
 - binding antibodies, 173
- release in hyperprolactinaemia, dopaminergic inhibition of, 15

Thyroxine

- binding globulin in pregnancy, 307
- concentrations in pregnancy, 307
- relative binding constants, 523

Trilostane

- and hypothalamic-pituitary-adrenocortical axis, 569
- and hypothalamic-pituitary-testicular axis, 99

Tumour

- testosterone secretion and amenorrhoea in, 557

Uraemia, 165

Vitamin D

- and femoral neck fracture, 189
- metabolism in hyperthyroidism, 51

Weight-loss

- related amenorrhoea, 379
